 - D50 5000K 36W

In different condition, the object may present different spectrum with same color. Our vision result of the colors will be differently, thereby it will affect us to judge the color accurately by our naked eyes. While according to our customer's demand, the Color Viewer ,which is the international standard, can provide the right light source you need when you check the colors, such as D65,D50,TL84,UV,U30,CWF etc.. The life-span of lamp depends on the accumulated running time and the turn-on times. When the lamp becomes aging, light instability or the two sides turn black, please replace the lamp timely, otherwise, the checking result will be affected.
