Portable pH Meter

Portable pH meter is an instrument that commonly used to measure the pH and conductivity of the solutions, inks, paints. It is suitable for educational, agriculture, horticulture,...

CATEGORY	Pressroom Testing Instruments
SUB-CATEGORY	Others
AVAILABILITY	1 in stock
MANUFACTURED	Dec 31, 2024

Description

Portable pH meter is an instrument that commonly used to measure the pH and conductivity of the solutions, inks, paints. It is suitable for educational, agriculture, horticulture, environmental ,water analysis, food, printing and packaging industries.

Technical specification

- Range pH Temp °C/°F - From 0.00 to 14.00
- Resolution pH Temp °C/°F - 0.01 pH 0.01 pH
- Accuracy at 25°C / 77°F pH Temp °C/°F - ±0.02 pH
- Temperature compensation °C Manual, - 0 to 50°C
- Calibration Manual, 2-point through offset and slope trimmers
- Environment °C 0 to 50°C; - 95% RH
- Battery type V 1 x 9 V alkaline 1 x 9 V alkaline
- Battery life h Approx. 300 hours of use Approx.
- Packaging dimensions mm 212 x 145 x 67 mm
- Packaging weight g 420 g

Key Features:

- Portable professional pH-meters with high performance. Ideal for use by brewers, wine makers, growers, labs, food processing and water treatment Alphanumeric LCD display with intuitive information / warning / error messages Internal clock to keep track of different functions Recording up to 1000 data Automatic calibration up to 5 points Auto-off function GLP key Probe and electrode included.

About CPPEX Global — MENA

A buyer and seller platform for printing inks, pressroom chemicals, adhesives, film and paperboard, machinery and instruments — and an exclusive distributor for manufacturers across the USA, Europe, the Middle East, North Africa and South Asia.
